

Inspection Record Template

for subsequent **rope inspections** according to **ISO 4309**

General Data														
Crane reference														
Rope application type														
DIEPA rope type					date of installation								remark: see DIEPA rope certificate	
Nominal diameter														
Direction and type of lay	RHOL		LHOL		RHLL		LHLL							
RCN														
reference diameter														
permissible numbers of broken outer wires	6d		30d										remark: see ISO 4309	

Inspection results																
No	Date	Visible broken wires						Diameter				Corrosion		Other damage / deformation		Combined severity rating (overall assessment)
		number in length of		position in rope		severity rating		actual diameter	decrease from reference	position in rope	severity rating	position in rope	severity rating	position in rope	severity rating	
		6d	30d	6d	30d	6d	30d	mm	mm	m	%	m	%	m	%
